He chose it for its big car prestige

ASTONISHING how many people who formerly paid high prices for the privilege of big car ownership are now turning to Pontiac. But it's not at all surprising when you consider Pontiac as the Big Six it is. Instead of the low price class in which it used to place it.

It's a car you can refer to with a sense of pride... a car that will more than justify your confidence in its prowess. Just see it and drive it if you'd learn why experienced and exacting motorists choose Pontiac for the Big Six prestige it provides.

Pontiac BIG 6

E. H. Pidgeon, Stony Plain, Alta.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Essex,

The Challenger,

Is proving to be a real Car, and is doing all that is claimed for it.

We ask you to drive and compare it with any other car.

Note the quick and smooth response of the motor. The speed and superb get-away.

The handling and riding quality are outstanding.

Don't take our word for it, but drive the car and prove it for yourself.

G. Oppertshauser.

A New Lighting System

The prospect of getting a light and power service in the town which will probably be a little more satisfactory than we are now receiving, seems fairly good.

The matter was up for discussion at the meeting of the Town council Thursday evening, when the committee which had had the matter in hand made its report.

The town has received an offer from the big power companies for what the town at present holds in the way of poles, lines and other outside equipment for supplying the electric juice to customers. The offer appears to be satisfactory, and a tentative agreement was reached by these two on this point.

The whole matter hinges on what arrangements may be made between John Armbruster and this same company as to the purchase of the plant which is at present supplying the electricity. The company has made John an offer, and the latter has taken the offer into his serious consideration.

Weed-Inspectors for Inga.

A new phase of the matter for the inspection of weeds in Inga Municipality was entered into, at the meeting last week of the Councillors of that Municipality when three weed inspectors were appointed.

The Municipality has been divided into three districts for the purpose of complying with the Noxious Weed Act. These districts are: Divs. 1 & 6, where T. Graden has been re-appointed to operate the spraying season. District 2 is composed of Divs. 2 & 5. District 3 comprises Divs. 3 & 4, with Mr. C. W. Ipsen of Dufield as inspector.

These three appointees were in attendance last month at the short course for inspectors held by the Dept. of Agriculture.

The Band to be Photographed

Members of the town band are getting ready for the annual event of having their pyssos, photoed. This will be done at Christie's photo parlour. A reproduction of the photo will be taken, to be used on the bills and posters the band will use on its proposed tour. Beside their bi-weekly band practice, the musicians are studying their parts in a play which they intend to produce in a short time.

Church Services

Rev. Osterman conducted an English service at the Inga church on Sunday evening last. His next English Lutheran service in Stony Plain will be Sunday, April 21, at 7.30 p.m.

R. C. services will be held in the Town Hall on Sunday next at 11 a.m.

Service at United church Sunday evening at 7.30; Rev. G. A. Sauder.

The West's Ocean Port

Announcement that the rails of the Hudson Bay Railway had reached Churchill on Good Friday, is the most welcome news the people of Western Canada have received for some time, heralding, as it did, the realization of a long entertained hope. For many years Western Canada agitated for the building of a railway to the Bay. It was vigorous, even violently, opposed by Eastern Canada interests, and, politically speaking, the voice of the West was weak in comparison to that of the East. The West, however, kept up its campaign of education as to the merits and feasibility of the route, and ultimately all political parties in Canada became committed to the project.

Finally, plans for a Hudson Bay Railway assumed definite shape in 1910, when a branch line of the Canadian Northern was completed from Hudson Bay Junction, Sask., to The Pas, Manitoba, and the building of a Government line from The Pas to Hudson Bay was authorized by Parliament. Work commenced the following year, with Churchill as the objective.

Following a change of Administration at Ottawa, Churchill was abandoned as the proposed terminal, and Port Nelson chosen. The location of the railroad was accordingly altered. The right-of-way was cleared and graded to Port Nelson and steel laid, before the end of 1916, as far as Kettle Rapids, 332 miles from The Pas.

Owing to the war and consequent lack of men and steel, operations were suspended and for some years only part of the completed railway was kept in repair.

The work thus commenced by the Liberals in 1910 was continued by the Conservatives until war, and the after-war period of financial depression stopped the work. The work, however, had only been carried on in a more or less half-hearted manner with the result that progress was slow, and the country, as a whole, lacked confidence in the undertaking, the East regarding it as a waste of public money and in the nature of a political sop to the West.

With the acceptance by Hon. C. A. Dunning of the portfolio of railways in the Mackenzie King Government, a marked change took place. It is an open secret that Mr. Dunning made the immediate and vigorous construction of the road a condition of his entry into the Government. He frankly told the people of the West that he regarded it as "his job" to complete the railway in the shortest possible space of time.

The task of reconditioning the roadbed which had fallen into disrepair was begun, and, in view of divergent views which prevailed as to the relative merits of Churchill and Nelson as terminal harbors, Mr. Dunning secured the services of the most eminent British harbor engineer to decide the question. He reported strongly in favor of Churchill, and his report was immediately accepted, and the road again diverted in that direction.

Since then there has been no let-up in construction. It has been pushed forward day and night, in season and out of season, with the gratifying result announced on Good Friday.

In the meantime Mr. Dunning grappled with the problem of building an effective harbor at Churchill and establishing the feasibility of the ocean route through Hudson Straits. Airplane and other surveys, radio, and every modern invention was called into use, and in two years public opinion in the West was not only justified, but the East was largely converted, especially as huge and very valuable mineral discoveries in the northland made accessible by the railway quickly followed.

Although both steel and telegraph have reached Churchill it will require some months yet to fully ballast the road to make it capable of efficiently handling trains. There is an enormous amount of work to be done to build necessary harbor facilities at Churchill. That work is in progress and being prosecuted with the same vigor as characterized the building of the railway in the last three years. Hundreds of carloads of supplies, material and equipment for the harbor are even now distributed along the railway to be rushed in at once now that the rails have been laid.

It is confidently anticipated that before the end of 1929 freight will be moving steadily from the prairies to the West's own ocean port at Churchill, and Mr. Dunning has already announced that the Crow's Nest Pass schedule of rates on grain will apply to the Hudson Bay route.

The new route will, it is believed, effect a veritable revolution in Western transportation. In preparation for it both of our great railway systems have been building north and south lines within recent years, whereas formerly their policy was to so construct lines as to move everything from east to west and west to east.

With the completion of the Hudson Bay Railway one of Canada's ambitions is being realized. It is in these Western Provinces that depth is to be given to the Dominion, something it has lacked since Confederation brought a Dominion into existence consisting of a long narrow strip extending from the Atlantic to the Pacific just north of the International boundary line.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight deadly "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilleine. Half a teaspoonful of Nervilleine in water makes a most efficient gargle. The germ-killing properties of Nervilleine quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilleine. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilleine and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Big Amount For Research

Ontario Government Increasing the Contribution For This Purpose

In conformity with the Ontario Government's offer "dollar for dollar" plan of assistance for industrial research in the province of Ontario, a bill has been introduced in the Legislature increasing the contribution of the provincial government to the Ontario Industrial Research Foundation from \$1,000,000, as provided in the 1928 act, to \$2,500,000.

Last year legislation was provided for the subscribing by the Ontario government of \$1,000,000 if the same amount were subscribed by private interests. So enthusiastic was the response that that amount has been over-subscribed and this amendment provides for its increase to \$2,500,000, to be granted on the same terms.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on your feet or toes—put it to the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes, PUTNAM'S will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

The Up-Keep Of Roads

Well-constructed highways are necessary in Canada to meet the insistent demands of traffic, but well-maintained roads are even of more importance in the interest of economy. Consequently, provincial road administrative organs and engineers are devoting a great deal of thought and attention to the care and protection of roads. In 1927, the mileage of roads under maintenance in Canada under the patrol of gang system was 44,416 miles, at a cost of \$16,024,617.

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones. The medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels, and Baby's Own Tablets are the laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colic and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The new underground railway station at Piccadilly Circus, London, was officially opened on December 10, 1928.

A Foe To Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Gold Fish Not So Delicate

Only temporary suspension of the activities of a bowl of gold fish resulted when the temperature dropped to 14 degrees above zero and the fish were encased in a solid cake of ice. They resumed their activity when the ice thawed. The temperature was the lowest in Marshfield at any time in the last twenty-five years.

The ease with which corns and warts can be removed by Heway's Corn Remover is its strongest recommendation. It seldom fails.

Ten thousand bushels of Garnet wheat are to be shipped to Britain and other wheat importing countries to be tried out by the millers there.

Pensions Act Modified

Amendments Will Make It Easier For Alberta Cities

Amendments to the Old Age Pensions Act passed before the legislature prorogued, will bring some relief to the cities in connection with the fact that a great number of the old age pensioners will drift from the rural municipalities into the cities.

An amendment to section four provides that any person having been granted a pension whilst resident in a municipality or an improvement district, shall be deemed to continue to be a resident of that district so long as he continues to reside in the province. This was in line with the suggestion of G. H. Webster, Liberal, Calgary.

In connection with the maintenance clause, an amendment was passed providing that no person will be called upon to supply maintenance if his or her earnings are such that they do not come within the scope of the Income Tax Act.

Hungarian Beggars Taxed

Beggars must pay taxes on their incomes, the Hungarian Government has ruled, following an investigation which proved that beggars often made more money than working men. An organization of mendicants has been ordered disbanded.

For Influenza

The Liniment That Relieves All Ailments

A house built of cellular glass, held together by thin iron plates, has been constructed in Japan by a native scientist. There are no windows; ventilation is provided by valves on the second floor.

YOU CAN'T DYE with Good Intentions

You can get results—after a fashion—with any old dye; but to do work you are proud of takes real aniline. That's why we put them in Diamond Dyes. They contain from three to five times more dye than other dyes on the market! Cost more to make? Surely. But you get them for the same price as other dyes.

Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that red-dyed look; of streaking or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes

Easy to use Perfect results

Area Of Land Under Crop In Western Canada Will Be Greatly Enlarged This Season

From the Dominion Bureau of Statistics comes a report upon the acreage of land that has been prepared in the prairie provinces for the growing of crops in 1929. That report shows that approximately 1,100,000 more acres of land are now ready for seeding than had been prepared at this time last year. The report thus suggests that the work of the farmers in western Canada is further advanced than it was at the same date in 1928. The statement of the bureau of statistics adds the information that there has been an increase in new breaking in Manitoba and Alberta and may indicate, by this announcement, that the area of land under crop in the prairie region will be enlarged in 1929. Possibly, then the expansion of the wheat-growing area in western Canada is to be continued this year. To those who look back over the records of progress in agriculture in this country that expansion will seem to have been marvellous. In 1891 the total area of land under wheat in Manitoba and the Northwest Territories was 1,010,433 acres. Ten years later the acreage had grown to 2,495,474. By 1906 the amount of land employed for the cultivation of wheat on the prairie had reached 5,062,448 acres. In 1911 it had almost doubled again and amounted to 9,301,293 acres. In 1921 wheat lands accounted for 22,181,329 acres out of a total of about 37,000,000 acres used for the raising of cereal crops. In 1923 a total of 21,223,448 acres was in wheat and in 1928 approximately 23,000,000 acres.

The expansion of the wheat-growing area in the prairie provinces, of course, has accompanied the increase in population in that part of the dominion. Both settlement and wheat-growing, too, have been stimulated by the development of the Marquis variety of hard spring wheat and, subsequently, of some other strains of wheat suitable for cultivation in the prairie region. The experiments of Dr. William Saunders and his sons, which resulted in the production of the Marquis wheat, were undertaken with the object of making available for farmers on the prairies a good variety of the grain that would mature more rapidly than varieties then in use. The success of those experiments, it has been said, very greatly enlarged the territory in the western half of the dominion with which wheat-growing was practicable. Improvements in farm machinery, the use of tractors to draw plows and binders and, of late, the introduction of combined reapers and threshers have all assisted the western farmers to extend the area of the wheat lands of the prairies. Last year those lands produced Canada's largest wheat crop. While the quantity of that crop was satisfactory, the quality of it was disappointing. The lowering of the grade of the crop was due largely to a factor beyond the control of the farmers, namely, the severe frost in August. While that is so, there have been complaints that in some districts a proportion of unsuitable and even poor varieties of wheat had been sown and it has been reported that in the prairie provinces, as well as in some other provinces, there is need for action to check the spread of noxious weeds. At any rate, discussion of the grading of the great crop of 1929 will emphasize the importance of attention to

the quality as well as to the quantity of the wheat grown in Canada—Mail and Empire.

Game Fish Hatchery

Stocking Alberta's Stream With Trout and Other Game Fish
Plans are under way for a game fish hatchery in the Edmonton district making a total of three in Alberta. The other two are at Banff and Waterton Lake. Each can handle 1,600,000 fry a season. Alberta's streams have been stocked steadily since the war and trout fishing has been greatly improved. Including the Red Deer and north the streams are stocked with Loch Leven and Brown trout, fall spawning species, and south of the Red Deer with cutthroat, rainbow and steelhead, spring spawner.

A Model Townsite

A model townsite is to be laid out at Churchill, the seaport terminus of the Hudson Bay Railway, which is being built by the Canadian Government from The Pas, Manitoba. Title to all the land occupied by the townsite will remain vested in the province of Manitoba and disposition of parcels will be by long term lease.

China has a population of more than 357,000,000.

An Important Industry

Flour and Grist-Milling Is Canada's Second Most Important Manufacturing Industry

The value of production in Canada's flour and grist milling industry has been climbing steadily since 1923, the Canadian Government Bureau of Statistics shows in a recent report on the industry for 1927. The amount of invested capital is also again on the up-grade an increase of over \$3,700,000 being shown.

The gross value of production for the year under review was \$191,741,470 which compares with \$189,550,741 in 1926; and \$154,895,901 in 1925. Flour and grist-milling is Canada's second most important manufacturing industry in point of gross value of production exceeded only by pulp and paper.

To Manufacture Fertilizer

Chemical Fertilizer Factory To Be Established At Saskatoon

Arrangements have been completed here for the establishment in Saskatoon of a \$750,000 chemical fertilizer factory. It will manufacture chemical fertilizers sulphuric acid, weed killer, sprays and other heavy chemicals. One of the products will be superphosphate fertilizer and it is stated that for its manufacture phosphate rock will be secured from the Banff district in Alberta, and from parts of the state of Montana. A growing market for superphosphate in the Prairie Provinces is anticipated because of the value of this fertilizer in wheat growing.

Safeguarding The Health Of The Rural Population By The County Health Unit System

More Room At Jasper Lodge

Increased Accommodation Provided For Mountain Hotel

So great has been the demand for accommodation at Jasper Park Lodge, the Canadian National Railway's summer hotel in the Rocky Mountains, that increased accommodation has been found necessary in order to care for the number of guests desiring to visit Jasper National Park, which is Canada's largest mountain park and game sanctuary, it was stated today by A. S. McLean, general superintendent of Canadian National hotels. To provide for the demand for further accommodation, eight new buildings are now in course of erection, the contract for these having been awarded to H. G. MacDonald and Co., of Edmonton, who now have a gang of men at work.

Last year a separate house-keeping cabin for the use of parties desiring to visit Jasper Park accompanied by their families, and taking with them their own staff of servants, was erected, and this was found so popular that another house-keeping cabin, similar to the first, is being erected. In addition, there will this year be four new four-room cabins, each room having private bath and with two sitting-rooms in each cabin. There are also being erected for the 1929 season, three 10-room cabins, each room having private bath and each cabin having a sitting-room. The new cabins are of log and native boulder construction, in harmony with the other buildings which comprise Jasper Park Lodge, and their erection will give accommodation for 850 persons, by the opening of the Lodge on May 21st, this year. In 1927 more than 400 persons were turned away owing to insufficient space to provide for their accommodation at the Lodge, and last year, despite increased space provided, the Lodge was unable to care for more than 200 applicants for rooms.

Prairie Tourists To Have Sea Cruise

Personally Conducted Tour Arranged By The Canadian National Railways

"Low land and high land and out along the sea." This line of verse applies perfectly to the summer tour which will leave the Canadian National Railways' Station at Winnipeg on July 1. Beginning here, the tour, which will be personally conducted, will cross the prairies, Saskatchewan and Edmonton, will tarry in Jasper National Park, will strike north through Prince George to Prince Rupert, and will then drop south by steamship on the Pacific Ocean to Vancouver.

Many reservations have already been made to say nothing of inquiries, and there is evidence enough that this year's tour will be as popular as last summer's. On the second day out, the travellers will spend the afternoon at Watrous, and will have an opportunity of bathing in Little Manitou Lake, a mineral lake unique in the prairies. They will see Saskatoon and Edmonton and will drive through Walworth Buffalo Park. After a day at Jasper, seeing the Lodge in the mountains, golfing and motoring or riding the mountain ponies, they will see the supreme Mount Robson, Bulkeley Gate and Canyon—one of Canada's wonders—and they will walk through the fascinating Indian village of Kiltwaga, which bristles with totem poles. The trip from the northern port of Prince Rupert to Vancouver, along the placid sheltered sea, will be a pleasure in itself, climaxed by a tour of Vancouver, and then the travellers will be free to go as they please.

Farmer Brown—What's your son Hiram doing in the big city these days?

Farmer Green—Studying for a doctor.

Farmer Brown—What's the matter? Doctor too lazy to study him self?

That Canada's present system for safe guarding the health of her rural and small-town citizens is inadequate, and should be replaced by the "County Health Unit" system, is the contention of five outstanding public health authorities representing four provinces, who write in the current issue of the "Canadian Public Health Journal."

From Regina, Dr. F. C. Middleton, D.P.H., Acting Deputy Minister, Department of Health writes to state: "The illusion that the country is a healthier place than the city. He quotes very complete American statistics to prove that the rural death rate is higher than the death rate in big cities. The most probable explanation he suggests, is that 'there is a more effective, continuous and organized protection of health in cities than in rural districts.' He characterizes the County Health Unit as the 'greatest single medium for the advancement of public health today' and adds that Saskatchewan is 'hoping to have at least four of these full-time health districts in operation this year, and our objective will not be reached until there are at least 20 established.'

Dr. Alphonse Lesard, Director, and Dr. Emily Nadeau, Assistant Director of the Quebec Provincial Bureau of Health, write as follows:

"What is the 'Country Health Unit' system which we are operating in our Province of Quebec? It consists in the establishment, in a county or in two small neighboring counties, of what might be designated as a 'Bureau of Health in Miniature,' composed of a full-time medical officer, two or more public health nurses, a sanitary inspector and a secretary. The whole population of the county is thus submitted to constant supervision on the part of this staff."

"In the counties where health units have been in operation for a period of two or three years, the general death rate has been reduced, and especially the infant mortality rate and the death rate from contagious and infectious diseases, with also a marked reduction in the number of cases."

How one community saved a \$6,000 hospital fee is told by H. E. Young, M.D., L.L.D., Provincial Health Officer, British Columbia.

"In the year previous to the opening of our first medical unit, the district in which it was situated had paid \$2,200.00 to the Isolation Hospital for cases that had been sent into it," he writes.

"The following year, 1928, under exactly the same local conditions but with full-time medical health officer in charge with a staff of four nurses and a sanitary inspector, we were able to reduce the Isolation Hospital charge to less than \$100.000. This was an argument that appealed directly to the municipal council."

Touching upon the matter of finance, Dr. Young writes: "I would urge the serious consideration of the resolution passed by the Dominion Council of Health, 'Resolved that the Dominion Government be respectfully requested to further the establishment of 'Full-time Health Units' by the voting of an annual grant of money for this purpose.'"

"The part-time medical officer of health has been to a large extent a failure," writes Dr. J. W. S. McCullough C.M., D.P.H., Chief Inspector, Department of Health, Ontario. Yet at the present time, fully 99 per cent. of Canadian municipalities leave their health in the hands of part-time medical health officers.

The County Health Unit is bound to come," he adds—the question is how soon?"

When we have talking shows we shall soon have talking portraits.—Sondagnisse-Strig, Stockholm.

Winnipeg Newspaper Union Fashion

No. 563—New Elegance. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 1/2 yards of 40-inch material with 1 1/4 yards of 40-inch contrasting.

No. 289—Flattering Neckline. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3 1/2 yards of 40-inch material with 3/4 yard of 40-inch contrasting and 3/4 yard of lining.

No. 783—Graduation Dress. This style is designed in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 yards of 40-inch material.

WORLD HAPPENINGS BRIEFLY TOLD

Hon. H. G. Carroll, vice-president of the Quebec Liquor Commission, received official notification that he had been named Lieutenant-governor of the province of Quebec.

R. B. Graham, Crown prosecutor in the Winnipeg police court since 1913, has been appointed police magistrate in succession to Sir Hugh John Macdonald, deceased.

Pending the world-wide abolition of slavery and forced labor, victims of the two institutions should at least enjoy the advantages of the eight-hour day, according to the International Labor Bureau at Geneva.

Clad in bright sweaters, knickers and high boots, with pack sacks slung across their backs, Hilda Beaton and Barbara Thorning, two English girls, have set out from Toronto on the first leg of a journey to Vancouver, B.C.

Heart Palpitated Nerves Bothered Her Sleep Was Broken

Mrs. Fred A. Pugsley, East Southamptown, N.S., writes—"I was bothered very much with my nerves and palpitation of the heart, and my sleep was broken at night."

and after I had taken six boxes I found that they had done me so much good I will gladly recommend them to all those who are troubled with sleeplessness caused by their heart and nerves."

Price 50c. per box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Very slow plumb: "Oh, I remember your little boy, mum, 'I were in the infants' class when I went to do a job at the school some time ago." Exasperated Lady: "Indeed. And what class was he in when you'd finished?"

More than 844,000 of England's citizens received poor relief in September of 1928.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

Mild Weather Thaws Igloos

Eskimos Are Made Homeless By Action Of The Sun

It might be expected that winter would be winter at Tavane Bay. For Tavane Bay is 250 miles north of Fort Churchill, where the Hudson Bay Railway, through Manitoba's rich northern mineral fields, will end. But the North has been much maligned. Even the Eskimos will tell you that. As usual, this past winter, the Eskimos of Tavane Bay built their igloos, their little round houses of snow and ice. As usual they were buried now and again by blizzards. But quite out of the usual was the thaw which struck them just after Christmas. The temperature soared to 21 degrees above zero. The walls of the igloos collapsed, and dozens of families were made homeless. Yet the Eskimos were cheerful. Their attitude was: "Who said our country was frozen up?" And building materials were cheap. As soon as the weather was normal again, they set to work and rebuilt.

Escalloped Macaroni With Cheese

- 1½ cupsful Borden's St. Charles Milk.
- 3 cupsful cooked, drained macaroni cut in two-inch lengths.
- 1½ cupsful grated American cheese.
- 1½ tablespoonfuls flour.
- 1½ tablespoonfuls butter or butter substitute.
- ¼ teaspoonful salt, scant.
- ½ teaspoonful pepper.
- Few grains paprika.

Make a white sauce of the flour, butter, seasonings and the milk undiluted. Stir in the macaroni. Thoroughly oil a rather shallow baking dish, put in a layer of the macaroni, then one of the cheese, continuing in this way until all is used and making the last layer one of cheese. Bake in a moderate oven until browned, about thirty-five minutes.

The Oil For The Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the home.

Alberta's farm workers received higher wages in 1928 than those of any other province in Canada with the exception of British Columbia.

Bible Three Centuries Old

Was Used To Swear In New Vice-President Of United States

A most unusual Bible was used to swear in the new Vice-President of the United States, Chas. Curtis, of Kansas. It is the property of E. M. Geis, of Salina, Kansas, and is 350 years old. The Bible has been in the Geis family at least five generations. It was printed in Cologne, Germany, in 1564, and was copyrighted by Emperor Ferdinand. It is bound in wild bear skin with wooden inner covers. The book is printed in two tones, red and black, in clear faced type, and contains many woodcut pictures. One scene shows an angel driving the devil out of Paradise. Satan is shown as a large horned dragon. On the frontispiece, which bears the German Imperial seal, are depicted a series of scenes, the first being the medieval artist's conception of the fall of man. Eve is shown handing Adam an apple. The second is of an angel driving the two out of the Garden of Eden.

A TIRED FEELING IN SPRINGTIME

Not Sick—But Not Up To The Mark—You Need The Help Of That Steady Tonic, Dr. Williams' Pink Pills—They Give New Vitality.

With the passing of winter many people feel weak, depressed and easily tired. The body lacks the vigor and energy pure blood alone can give. In a word, while not exactly sick, the indoor life which has left its mark upon them. A blood-building, nerve-restoring, tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-round blood builder and nerve tonic but are especially useful in the spring. Every dose helps to make new, rich, red blood and with this new blood returning strength, cheerfulness and good health quickly follow.

If you are pale, easily tired, or breathless at the least exertion, if your complexion is poor or you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches and backaches, if you are irritable and nervous, if your sleep does not refresh you, or your appetite is poor, you need the treatment Dr. Williams' Pink Pills alone can give—you need the new strength and new energy this medicine always brings. Mr. A. Marotte, North Ham, Que., writes: "I have found great benefit from the use of Dr. Williams' Pink Pills. Before I began using them I was in a badly run-down condition, and at times felt scarcely able to work. Dr. Williams' Pink Pills have changed all this and since taking them I am enjoying the best of health. Every man who feels run-down and easily tired should give this great medicine a fair trial."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuralgia, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c. a box from Dr. Williams' Medicine Co., Brockville, Ont.

Calgary's Aero Club

Calgary's Aero Club now has 814 members, of which 145 are taking instruction.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

Edmonton's School Enrollment—Edmonton's school enrollment is 14,600, which is more than double the city's entire population twenty-five years ago.

Young women in Japan are rapidly taking the place of men as elevator operators, as well as in many other positions connected with business and industrial advancement.

For years Mother Graves' Worm Extremator has ranked as a reliable worm preparation and it always maintains its reputation.

There may be splinters in the ladder of success, but you don't notice them unless you're sliding down.

SUNDAY SCHOOL LESSON

APRIL 14

HEZEKIAH LEADS HIS PEOPLE BACK TO GOD

Golden Text: "Jehovah your God is gracious and merciful." 2 Chronicles 30:9.
Lesson: 2 Chronicles 30:1-27.
Devotional Reading: Psalm 145:8-17.

Explanations and Comments

Ritual Was Made For Man and Not Man For Ritual, verses 1-4. Nisan, the first month of the Jewish year, corresponding to our month of April, was the regular time for keeping the Passover. In the reign of Hezekiah, however, the Passover could not be kept at that time, because a sufficient number of the priests had not sanctified themselves (had not undergone certain washings, abstinence and forms), nor had the people assembled at Jerusalem owing to the fact that the temple was not cleaned until the sixteenth day of Nisan, and the fourteenth day was the time for beginning the Passover. Accordingly, the King with the princes and all the assembly in Jerusalem, had taken counsel together and had agreed to keep the Passover in the second month. The law (Numbers 9:10, 11) allowed those who for good reasons were prevented from observing the Passover at the regular time to celebrate it in the second month, and this decision seemed right to the king and the whole assembly.

Dr. Charles Reynolds Brown contrasts Hezekiah's broad-minded action with the narrow scruples of those chief priests and Pharisees who were intent upon putting Christ to death upon the cross at another Passover, and who would not venture into Pilate's judgment hall lest their holy feet should suffer defilement and make them unfit to share in the sacred feast. "No one is entitled to speak with greater authority on the limitations of ritual than a strong advocate of the sanctity of ritual like the Chronicler; and we may well note, as one of the most conspicuous marks of his inspiration, the sanctified common sense shown by his frank and sympathetic record of irregularities of Hezekiah's Passover. It says much for the healthy tone of the temple community in his day that he does not attempt to reconcile the practice of Hezekiah with the law of Moses by any harmonistic quibbles."—W. H. Bennett. "Everything regarding form is elastic in the interests of the soul."—W. L. Watkinson.

Minard's Liniment for the Grippe and Flu.

The children of a native mission school were asked to make a sentence in which the word "spoke" was used. After much thought Sammy wrote, "A spoke is a white ting wot come in de night."

The Four Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's store is complete without it.

The seagulls' zosteria marina, when dried, has the quality of deadening noises. For this reason it is used extensively as an insulator in houses. It also is a poor conductor of heat and cold.

Use Minard's Liniment for the Flu.

Princess Mary has been elected president of the Yorkshire Beekeepers' Association, stated to be the largest society of the kind in the world.

Alberta Wheat Pool Elevators Fifty-six elevators will be built at as many different points by the Alberta Wheat Pool this year. This will bring its total up to 374 elevators.

COULD NOT DO MUCH WORK

Eczema on Face, Neck and Hands, Cuticura Heals.

"Eczema broke out in pimples all over my face, neck, arms and hands. I had to keep my sleeves rolled up so they would not irritate the breaking out on my arms. I was ashamed to go around on account of the eruptions and the irritation was terrible. I could not do much work, and the irritation kept me awake at night."

"I sent for a free sample of Cuticura Soap and Ointment and it gave relief. I purchased more and in about two weeks I was completely healed." (Signed) Percival B. Pinder, R. R. 6, Lindsay, Ont., Aug. 27, 1928.

Cuticura Talcum, the newest member of the Cuticura family, for the newest member of your family.

Read Dr. Chalmers' Book, "The Skin," Sold Everywhere. Sample and Free Address: Cuticura Talcum, J. W. Thompson, Limited, Montreal. "Cuticura" Shaving Stick 2c.

About all you can say for juries-men is that they shorten the yer's deliberations.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infants, who have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA

SUBSIDY SYSTEM FOR PROVINCES IS CONDEMNED

Ottawa.—Manitoba would not have been "one cent better off today" had she retained all her natural resources from the time she was made a province, declared A. R. McMaster, K.C., senior counsel for the Dominion, appearing before the Manitoba natural resources commission and concluding his argument against the claims of the province for compensation from the Federal Government for alienated lands.

"Her natural resources," he said, referring to those which remained unalienated, "are now being returned. Those alienated are more than offset in value by the Dominion's expenditure in their administration since 1871. What Canada has done for Manitoba has more than compensated for any possible loss."

While admitting that to follow the order-in-council of the Federal cabinet, Manitoba must be placed in a position of equality with other provinces and must not be discriminated against, Mr. McMaster urged that "the Dominion must not be placed in a worse position than she would have been in had Manitoba kept her natural resources from the first and administered them herself."

The subsidy system, he declared, was vicious. He urged that the commission be charged in increasing such payments. It was a bad principle for one government to collect taxes and another to use them for revenue. The practice should be kept in as narrow confines as possible, curtailed as far as was practicable, in justice to all.

"Manitoba is not a poor sister," he continued. "If she is treated with lavishness there will be demands for similar treatment from east and west. One claim will lead to another, it may become—and I see a real danger here—an endless ring of demands upon the Federal Government."

One of two things would be the result of such a situation. Either Dominion service would have to be curtailed or else taxation would have to be increased. The one avenue open to the Government of Canada to increase revenue was through its customs duty, he believed. And this would touch the pocket of the consumer.

Mr. Justice Turgeon, chairman of the commission, asked Mr. McMaster what he would suggest in place of subsidies which he was condemning. Mr. McMaster replied that he would rather see a lump sum paid to Manitoba, if compensation were necessary, than have an increase in expenses. But he had no opinion, he added. He had no instructions to offer any such suggestion.

Mr. Justice Turgeon pointed out that the subsidy system was provided for in the Confederation pact and was meant to take the place of surrendered avenues of revenue through customs duty.

Michigan Law Repealed

Famous Life - For - a - Pint Law is Revoked

Lansing, Mich.—Michigan has revoked its famous "life-for-a-pint" law. Governor Fred W. Green signed the Watson House bill eliminating 120 "minor" felonies from the list of crimes which drew the life penalty for fourth offences.

Governor Green said he would commute the life sentences of Mrs. Ella Mac Miller, Channie Tripp, Tony Papich and others who are serving life sentences for liquor felonies.

Libel Action Costs Heavy

Toronto.—Taxation of the bill of costs, submitted by W. N. Tilley, K.C., counsel for Sir Arthur Currie, commander of the Canadian Corps in France during the great war, in his libel action has been made. The net costs allowed totalled \$5,377. The amount charged before taxation was \$11,087. In addition to this, defendants will have to pay judgment of \$500.

W. N. U. 1780

Two Killed In Plane Accident

Pilot and Passenger Lose Lives In Crash At Khedive, Sask.

Khedive, Sask.—To the sudden panic of a passenger, unnerved by the swooping ascent and gyrations of the aeroplane in which he had sought the thrill of a first flight, is attributed the tragic crash last night that cost the lives of Flying Instructor Roland Ford, of Regina, and John Syderechuk, a C.P.R. section foreman.

Trapped in the enclosed cockpit of a dual-control Velle Moncouque when the right wing of the "plane," in which the two were flying, fouled a telephone wire, they were plunged downward with terrific force, and death either came instantly from concussion, or else they perished in the flames that immediately enveloped the crumpled machine.

The coroner's jury which investigated the tragedy came to the merciful conclusion that the victims were either dead or stunned and thus oblivious to suffering. On the other hand, a Regina pilot who visited the scene and examined the wreckage of the plane in the light of all the circumstances, expresses the opinion that the crash was not sufficient of itself to cause the deaths of Ford and his passenger. He believes the two fought vainly to escape from the blazing cabin before succumbing to the flames.

Scholarships For Research Workers

Students Of Outstanding Merit Have Been Selected For Awards

Ottawa.—Sixty of the applicants for post-graduate scholarships from the national research council of Canada have been granted either fellowships, studentships or bursaries for 1929 according to announcement made by the scholarships committee of the council. Out of the hundred applications before the council those of outstanding merit have been selected for the awards.

The list contains names throughout the breadth of the Dominion and allows for the expenditure of approximately \$50,000 for research which will be followed at various Canadian universities.

The purpose of the annual endowment of individuals with money grants by the national research council is to assist in building up in Canada a corps of thoroughly trained research workers capable of undertaking and directing scientific research on Canadian industrial problems or in connection with the development of Canada's natural resources.

The scholarships go to university graduates who are following some line of scientific investigation at university laboratories.

Serious Epidemic Of Meningitis In China

Steamship Officials Take Steps To Prevent Spread Of Disease To Other Countries

Shanghai, China.—The meningitis epidemic having reached serious proportions here officials of steamship lines have decided not to accept steerage passengers from Shanghai bound for Canada and the United States. The action was taken in an attempt to prevent the possible spread of disease to these countries.

Owing to lack of statistics accurate information of the number of cases was lacking but it was known to be large. In the Shanghai area authorities estimated, there were one thousand cases being treated. Many deaths have occurred within a radius of one hundred miles of Shanghai.

Settlers For West

Halifax, N.S.—With from four weeks' to four months' training at various farm centres in England and Scotland to their credit a party of 110 British immigrants bound for the grain fields of Canada, arrived here on the White Star liner "Doric." They later entrained for Winnipeg.

Will Operate New Hotel

Toronto.—The Canadian Pacific Railway has agreed to operate the hotel to be erected in Guelph by Arthur W. Cullen, Chicago grain operator, according to E. W. Beatty, president of the railway, who is visiting Toronto.

RESIGNS IMPORTANT POST

Lord Lovat, who has now almost given up public life, has resigned from the chairmanship of the overseas settlement committee owing to ill-health. He resigned as parliamentary under-secretary for Dominion affairs last December.

Will Open Immigration Department In Regina

Permanent Headquarters To Be Established On May 1

Regina.—Permanent headquarters of the Department of Immigration for Southern Saskatchewan will be established here May 1, according to an announcement made by Geo. Todd, of the Immigration Department, who will be in charge of the new office.

Mr. Todd explained that there had been a growing need during the past year for an office in Regina, and that temporary accommodation had been secured in the Veteran Block during the last month. The new Regina office of the department will be situated in the Dacre Block and will be in a similar position to those already established at Saskatoon, Calgary and Edmonton.

Fellowship For Alberta

Cambridge, Mass.—Vernon Elgin Way, of Edmonton, Alberta, has been awarded the Charles Elliot Norton fellowship in Greek studies for 1929-30. It was announced at Harvard University. Way is a student at the Harvard graduate school of arts and sciences. The fellowship is for a year's study at the United States school of classical studies at Athens.

Missing For Three Months

Boston.—The Boston Herald says that 17-year-old Rosamond Morse, daughter of Edward W. Morse, Jr., wealthy Brookline resident, has been strangely missing from home since the night of January 4. A nationwide search by private detectives and police has been unsuccessful.

Making Tour Of Canada

League Of Nations Officers To Help In Membership Drive

Ottawa, Ont.—One of the highest officers of the League of Nations is a visitor in Canada. M. Joseph Avenol, Deputy Secretary General of the League, arrived in Vancouver from the Orient and will tour Canada from the Pacific to the Atlantic speaking on behalf of world peace and the work accomplished by the League.

M. Avenol has been in China conferring with members of the Nationalist Government which has been formally recognized by the League as the de facto administration in that country. It is now a long time since Soviet Russia exercised any influence in the councils of Nationalist China, and M. Avenol expects to report to Geneva a great strengthening of Chinese co-operation with the League as a result of his visit.

The Deputy Secretary-General will be a speaker on behalf of the big coast-to-coast drive for new membership to be launched April 16 by the League of Nations society in Canada. The present membership of the League is 21,000 and it is expected this will be well over 50,000 on the completion of the membership campaign.

Pacific Yields Clue To Aviation Tragedy

Parts Of Airplane Found May Solve Ocean Mystery

San Francisco, Cal.—Parts of an aeroplane, twisted into weird shapes and water soaked, were brought here to determine whether they might aid in the solution of a tragic ocean mystery, either during the Dole flight to Honolulu or army and navy manoeuvres off the coast.

Most of the evidence indicated they were parts of a United States government craft which disappeared in 1922 or 1923 during a flight off the Pacific coast, attendants at Mills Field, the municipal airport, said after a brief examination.

There were also several indications that the hardly distinguishable struts, rudder and frame might be parts of the "plane in which Captain William P. Erwin, American war ace, and Alvin E. Schwald were carried to their death while 500 miles from here on their way to Honolulu in 1927.

Aviation Course By Mail

Boston.—Learning to fly, by mail, is now possible under a plan being carried out by the Massachusetts State Department of Education. Since the department's recent announcement that it would offer a correspondence course in aeronautics, more than 500 inquiries have been received from 23 states of the union, Canada and Haiti.

CANADIANS IN U.S. ARE SUBJECT TO DEPORTATION

Washington.—Thousands of Canadians are certain to be affected by the "absolute deportation" law, which passed near the close of congress. Walter W. Hund, assistant secretary of Labor, one time commissioner-general of immigration, said the illegal residents are divided into three groups.

In the first group are those who entered this country without payment of the head tax of \$8 between 1917 when the tax was first imposed, and June, 1921, when the first immigration exclusion act went into effect. This group is the least seriously affected. They cannot be deported as the statute of limitations has outlawed their offences. Steps are being taken in congress to validate their residence.

In the second group are those who entered without paying a head tax between the policy of 1921, and July 1, 1924, when the policy of strict exclusion went into effect. Members of this group also are in no danger of deportation, as the statute of limitations has operated to protect them from prosecution. But unless they take steps at once to validate their residence, they can never safely leave the country, even for a short visit to relatives in Canada. If they cross the international border they can never get back except by complying in all particulars with the present immigration laws.

Men and women who have slipped into the country since July 1, 1921, comprise the third group and are affected by "absolute deportation" law. They are not protected by any statute of limitations, as the 1924 law specially provided that the statute would not apply. The government reserved the right in that law to proceed against illegal residents at any time, even 20 years hence.

Many in this group have obtained employment, have built homes, and to all intents and purposes are permanent residents, but if they are known to the immigration authorities they are in grave danger. If they are arrested, found to have evaded immigration laws, and sentenced to deportation, they can never hope to return to the United States.

Express Confidence In Bracken Government

Labor Resolution Defeated 31 to 19 In Manitoba House

Winnipeg.—By a vote of 31 to 19, confidence in the Bracken Government was expressed by the Manitoba legislature, when a Labor resolution demanding an investigation of the Seven Sisters Falls power agreement by a committee of the House was defeated.

The issue had been regarded by the premier as one of want of confidence. John Queen, Labor leader, was the sponsor of the resolution.

In the division the government had the support of the Liberal members, including H. A. Robson, Liberal leader, Conservative, Independent and Labor members supported the Queen resolution.

When the session opened Premier Bracken and the leaders of the various groups paid tribute to the late Sir Hugh John Macdonald. By a standing vote a resolution of sympathy was unanimously adopted.

Uruguayan Fliers Safe

Bogota, Colombia.—Two weary aviators for whom all hope had been abandoned have turned up at Tunaco, southernmost port of Colombia, after a two days' voyage in a small boat along the coasts of Ecuador and Colombia. The Uruguayan fliers declared they had been forced down in Northern Ecuador and their plane destroyed.

Valued At Four Billions

New York, N.Y.—Diamonds owned in the United States are valued at \$4,000,000,000, the Continental Insurance Company has found. The per capita value of the country's holdings is greater than that of any other country. Few of the world's large diamonds are owned in this country.

Laurentian Spring

The photograph reproduced above is a purely amateur study, but it is a fine illustration of how the great Laurentian district north of Montreal lends itself to pictorial art. It is used by the Tourist Department of the Canadian Pacific Railway to lure the fisherman from his home as, although it does not demonstrate the pictorial possibilities, it does show something of the great natural beauty which every true angler appreciates equally with opportunity to demonstrate his art.

the finny tribe to be found in
North American waters. Some
claim that, inch for inch and pound
for pound, the small mouth black
bass is the greatest fish that swims.
Others are equally enthusiastic in
praise of the speckled brook trout,
while still another fraternity claim
that the salmon puts up as noble a
fight for its life as any game fish
attain. All are agreed, however,
that the muscalunge, sometimes
called the "fresh water tiger" is
one of the greatest fighters known
to anglers, and that he will put up
a little royal when attached to the
business end of a rod.

One of the productive muscalunge
streams in North America is
the French River, in Ontario, Can-
ada, which connects Lake Nipisa-
sing on the East with Georgian
Bay on the West. This tangle of
waterways is not only the haunt of
the fighting muscalunge but it

yields small and large mouth black
bass, great northern pike of enor-
mous size and pickerel in abun-
dant, as well as pan fish. Not long
ago a prominent New York busi-
ness man landed a 55 pound
"muskie" after a battle which will
probably satisfy his quest for a
thrill for the rest of his life.

French River is two hundred
miles north of Toronto on the
Sudbury Line. The French River
Bungalow Camp, a series of cozy
individual bungalows centering
around a main club house, provides
comfortable accommodations for
the angler and his family. Jack
Strathdee, manager of this anglers'
retreat, is a genial host who is glad
to give the uninitiated fisherman a
few tips on how to lure the wily
"muskie." French River Bungalow
Camp has as its adjacent Pine
Rapids Camp, some 20 miles up
the river, and located just at the
spot where the "whoppers" are
likely to lurk.

Stony Plain and District.

IT PAYS TO PAY CASH.

Mr W M Washburn is at present visiting relatives in the Eastern States.

Mr Henry Enders, merchant, left this week on a business trip to Armstrong, B C.

Mr G Oppertshausen has been appointed a Commissioner for Oaths.

A sitting of District Court is billed for Wednesday next, April 17, in Stony Plain. It is understood Judge Crawford will preside.

Agent Pidgeon got in a carload of Pontiacs on Friday, with a coupe being taken out by Mr McKinlay.

Extensive alterations and improvements have been made to the interior of Hardwick's Department Store, the work being done under the supervision of Contractor Strass.

A dance is billed to be held at Cottage Lake schoolhouse tomorrow (April 12).

Farmers residing within a reasonable distance of Mr Henry Giebelhause can have their stubble plowed for \$2 an acre, by seeing Henry.

FOUND. Purse containing sum of money. Finder can have same by proving property and paying for this advt.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year.

The Popular Concert.

Despite the weather conditions Friday night Wudel's hall was well filled when the opening number was given in the concert held by the Stony Plain Women's Institute. All the numbers were well received, and encores were repeatedly called for. Following is the program:

O Canada!
Piano—Edith Oatway
Reading—Miss Robertson
Song—Mr Yeats
Reading—Mr McLean
Song—Mr Hardwick
Reading—Mr Spike
Piano—Nuth Wight
Song—Mr Yeats
Reading—Mr McLean
Song—Mrs Yeats
Male Quartet—Hardwick, Yeats, Moses, Barth.

United Church Notes.

On Sunday evening last there was a splendid attendance at the service in Stony Plain. The sermon was preached from "That those things which cannot be shaken may remain."

Next Sunday, April 14th, services will be held at Spruce Grove, Bright Bank, Stony Plain. It is hoped there will be special music at the Stony Plain service.

At Bright Bank it is expected a baptism service will be held.

No Change in Rat Law This Season.

Several inquiries have been received from trappers regarding the change made in the trapping law for rats at the last session of Legislature. The new law reads: "Notice of the No. Saskatchewan river and So. of Tp. 90 the close season hereafter will be from April 15 to the following March 15." This order does not go into effect until May 16 next.

Death of Mrs. August Zahn

The death occurred in Stony Plain on Tuesday last of Mrs August Zahn, beloved wife of Mr August Zahn, in her 64th year. Deceased had been ailing for some time and passed away at the home of Mrs Stauby, an old time friend. Deceased came to Canada in 1906, and settled with her husband in the Brightbank district.

The funeral takes place tomorrow (Friday) and will be conducted by the Rev. G. Poetzsch, pastor of the Lutheran church at Rosenthal. Interment will take place in Rosenthal cemetery.

Deceased leaves to mourn her loss, her husband; three sons, William of Edmonton, Adolf at Battleford, Sask., and Edward; two daughters, Mrs Ferd. Horn and Mrs Fred Goefel Jr.

Blueberry Briefs.

The marriage took place in Edmonton last week of two popular young people of this district when Miss Alexandra May Campbell became the bride of Mr Geo Ashmead. The ceremony took place on March 31st, in the Manse of First Presbyterian Church, Rev Dr D G McQueen, the pastor, officiating. Mrs Eliz McQueen was bridesmaid and Mr Peter Keser the groomsman. Miss Campbell is a graduate of the University of Alberta, having been given her B.A. degree there a few years ago, and is at present principal at Blueberry school; while Mr Ashmead is one of Blueberry's enterprising farmers. The happy couple spent their honeymoon at Banff.

Miss K Kelly and Miss Russell, of Edmonton Normal, are taking a short course in teaching, this week, at the local school; the former in the principal's room, and Miss Russell in the primary room.

Holborn Happenings.

Miss Alma Burger, a nurse at the Edison hospital, is on a visit to her home here.

At the meeting, Saturday night, of the U. F. Local, the holding of the annual picnic was up for discussion, and preliminary arrangements are in progress for the holding of this popular sporting event. The picnic this year promises to excel all previous events, as several new contests will be on the card, and an energetic sports committee will have charge of the arrangements.

Spruce Grove News

Mr Chas Ries left Tuesday morning for his home at Vernon, B. C.

Mr Hy Schellenberger has some of his purebred stock entered at the Spring Stock show in Edmonton this week.

A new school district named Michael S.D. No. 4404, has been erected, with Vital Callihoo as senior trustee. The new district is made up of land taken from Atim Lake, Spruce Grove and Muir Lake district.

At the recent meeting of Spruce Grove M.D. Mr John Metcalf was re-appointed as weed inspector for the coming season, as also was Mr T Pinchbeck.

Messrs Tom Johnson and O'Donnell have received their diplomas as weed inspectors from the Dept of Agriculture. About ten from this municipality took the exams.

Phil Miller has moved his sawmill from the Ries farm to the Tomas ranch at Wood-bend.

Golden Spike

Philip Trautman of Golden Spike is being sued by Gottlieb Baer, an immigrant, for a total of \$2880. Baer alleges that Trautman neglected to procure medical aid for him or advise him how to get it, when he had his leg broken while in Trautman's employ. Baer claims owing to this neglect his leg set crooked and later had to be rebraken, causing him loss of work for nine months.

Feeders' Day at University.

An invitation is being extended by the Dept. of Animal Husbandry at the University of Alberta to attend their eighth annual feeders' day which will be held at the University Farm on Saturday next, April 13. Farmers and livestock men who can attend this popular event will be interested in the outline which will be given of the extensive program of experimental work with beef cattle, sheep and swine which has been carried on during the past year.

FORD SAFETY.

Safety, comfort, reliability, economy, speed, acceleration, beauty—these are the features that make the new Ford such good value. Of all these is none more important than SAFETY.

The safety of the new Ford comes not only from its efficient brakes, but from many other factors. Among these are ease of steering and control, the Triplex shatterproof glass windshield, and the sturdy, balanced construction of the car.

We can make immediate deliveries on all models.

The Greatest March in all McLaughlin Buick History

THE motor-car buyer... the final judge of automobile values... has registered enthusiastic endorsement of the revolutionary advances made by the 1929 McLaughlin-Buick!

During the past month, McLaughlin-Buick sales have been 25% greater than March of last year... greater than any previous March in all McLaughlin-Buick history.

More people buy McLaughlin-Buick than any other car at or above its price... because the 1929 McLaughlin-Buick with its Masterpiece Bodies by Fisher, has unquestionably established a new standard of performance and a new order of beauty.

Get behind the wheel and get the facts!

E. H. PIDGEON,
